5. At the bottom of each column is a text box. This text box can be used to filter information contained in the specific column. As you type in the box, the table will automatically display the data matching what has been typed. The table will also list the number of matching records compared to the total number of records contained in the table. Deleting the text restores all records.

6. This field acts as a filter for information contained in the entire table. As you type in this box, the table will automatically display the data matching what has been typed. The table will also list the number of matching records compared to the total number of records contained in the table. You can use this field to further filter the table results if you have already set a filter on a column. Deleting the text restores all records.

7. Click the red question mark to display this table help information.
